for a confidential discussion on strategic options for Business Growth

Consultants
and Advisers

Explore your Strategic Options with a **Discovery Conversation**

Many businesses and business owners hit a plateau and require some external intervention to reset their goals and help achieve them. Our **Discovery Conversation** will do just that.

- 1** Start by scheduling a confidential **Free of Charge** call with a **HEART of business** Consultant by clicking here.
- 2** Then arrange a half day workshop to consider in detail your options. Our attendees will be governed by what is agreed in the introductory call.
- 3** Following the workshop a report is prepared. This typically contains our recommendations, a financial analysis and projections based on the output from the workshop.
- 4** Then schedule a two hour review to discuss the report, its recommendations, answer any outstanding questions and agree next steps. Whilst this is the last stage of the programme many clients will want to take the option to ask for further support to help make the plan happen.

About us

HEART of business is a collaborative business development team. We are a growing business whose members operate in Oxfordshire • Buckinghamshire • Berkshire • Surrey • Kent • London.

We can help growing businesses in a number of ways; with business experts across a range of disciplines offering complementary advice; assisting with implementation and providing outsourced services.
