

# ROCKET

**Most training bores the pants off people.**

Raft-building. Coal-walking. Trust falls. How are your people supposed to use any of that back at the ranch?

That's why we invented Rocket, the business simulation game that will get your team's pulses racing (and their sphincters twitching, truth be told). Once they've played it, they'll come back to work talking about how much fun it was and itching to apply the skills they learned.

# THE BUSINESS SIMULATION

## ROCKET Ignite CORE BUSINESS SKILLS... IN ONE DAY

As an SME owner, you need to build the quality in your management team so you can reduce the number of sleepless nights.

## ROCKET Scale STRETCH CHALLENGE ACCELERATE

If you really want to stretch the legs of your management team, ROCKET Scale will bring them together and equip you to build a world-class organisation.

## ROCKET Assess HAS YOUR TEAM GOT IT?

If you're about to make a large investment in a new company, you'll want to know if the team spending your money has got what it takes. ROCKET Assess will tell you.

# ROCKET Enterprise

## CULTURE PURPOSE TRANSFORMATION

ROCKET is a highly flexible platform that can be adapted to deliver large scale change within organisations. You tell us what you need; we'll build it.

## ROCKET Graduate

### YOUR FUTURE LEADERS

Who are your future leaders? Who are your agents of change? Difficult to tell straight out of university.

## ROCKET Risk

### BE BETTER PREPARED

Set yourself up for success by understanding how risk is essential for value protection and value creation.

# PLAYER TESTIMONIALS

Through attending the ROCKET experience, I was afforded a unique opportunity to experiment and implement new business strategies within an immersive, fun and safe simulated business environment that revealed how a successful business should be run.

This led to a clearer understanding of roles and responsibilities; the process required to support a successful business and the intrinsic need for commercial awareness across a whole business.

As a legal services professional with over thirty years' experience, both in house and private practice, it is clear to me the value that playing ROCKET will bring to teams in commercial organisations.

**Mark Lawson, Stuart & Co**

Having attended a ROCKET session it was clear to my colleague and I, even experiencing it in this condensed manner, that ROCKET is so much more than just a fun, team building away day. Although it is certainly fast-paced and completely immersive, a tremendous volume of knowledge is shared and delivered in a concise, well-structured and easily absorbed manner.

I feel that the real potential benefits for the business come from the regular and strategic planning sessions, producing genuine actions which can be taken back to the real world and immediately implemented.

**Richard Loudon, Property Partner, Simpson & Marwick**

I questioned the investment required. Would ROCKET give me the return I expected?

I can confirm, it definitely did.

Throughout the day we covered a tremendous amount of information, delivered in concise levels of the game that were immersive, fun and easy to absorb. The structure was clear, logical and effective. The team at GWOFF has obviously put a lot of thought and business expertise into designing the game.

But it wasn't just about the new knowledge. The main benefits came during the strategic planning sessions, formulating strategies, receiving individual feedback and interacting with both the GWOFF Facilitators and the VWS team going through ROCKET.

This format has provided invaluable insights and reflections into how VWS is run, giving my team the confidence to implement new ideas and strategies in the business almost immediately, in stark contrast to my past failed attempts to engage and empower them.

**Graham Wilson, Managing Director VWS**

**Training sucks. Rocket rocks.**
